Harmony® LED and vLED Surgical Light Systems

Introduction
This on-site training for Equipment Technicians will provide you with the knowledge to operate and perform basic maintenance on the Harmony®, LED and vLED Surgical Light Systems.

Course Goal
This course provides the student with an in depth understanding of how to operate the Harmony®, LED and vLED Surgical Light Systems and perform basic troubleshooting and adjustments. The student will learn the theory of operation and functional descriptions for major components and how to access the STERIS® website for technical information, technical assistance or place a service request.

Course Outcomes
At the end of this course, the student will be able to:
- verify proper installation of the Harmony®, LED and vLED Surgical Light Systems.
- verify all utilities are available to operate the Harmony®, LED and vLED Surgical Light Systems.
- operate the Harmony®, LED and vLED Surgical Light Systems in normal and service modes.
- locate the preventive maintenance schedule and learn how to use it to perform basic preventive maintenance on Harmony®, LED and vLED Surgical Light Systems.
- perform basic troubleshooting and adjustments.
- put the Harmony®, LED and vLED Surgical Light Systems into a safe state.
- clean the Harmony®, LED and vLED Surgical Light Systems.
- access the STERIS service websites for assistance.

Duration
Eight Hours

Training Location
Customer Facility

Why train at this location
Training can be tailored to fit your specific needs and scheduled to fit your timeframe, at a time and location that are most convenient to your staff. Without ever leaving your facility, your staff can gain new skills, boost their confidence, and improve their productivity.
