

Vision® 1327 Cart and Utensil Washer/Disinfector

Introduction This online training for Equipment Technicians will provide you with the knowledge to operate, maintain, service and troubleshoot the Vision® 1327 Cart and Utensil Washer/Disinfector.

Course Goal This course provides the student with the knowledge of how to operate the Vision® 1327 Cart and Utensil Washer/Disinfector and perform basic troubleshooting, preventive maintenance and adjustments. The student will learn the theory of operation, normal and service modes, functional descriptions of the major components and which components must be checked according to the Preventive Maintenance Guide.

Course Outcomes At the end of this course, the student will be able to:

- describe the safety precautions to be taken when operating and servicing the cart and utensil washer/disinfector.
- describe the eight utilities required to operate the cart and utensil washer/disinfector.
- describe how to operate the cart and utensil washer/disinfector in normal, service and supervisor modes using the control display touch panel.
- describe how to access the PM Guide and perform preventive maintenance in accordance with the PM Guide.
- locate the piping system components and describe their purpose and function.
- locate the door system components and describe their purpose and function.
- describe how to navigate to the electrical, plumbing and pneumatic schematic diagrams.
- how to locate the cycle description charts and describe a cart cycle.
- describe how to put the cart and utensil washer/disinfector into a safe state.
- describe how to clean the cart and utensil washer/disinfector.
- access the STERIS® service websites for technical information and assistance.

Duration One Hour
